KINERJA KEUANGAN TAHUN 2022

FINANCIAL PERFORMANCE IN 2022

Pendapatan konsolidasi FY22 turun 4% YoY menjadi Rp 14,8tn, karena pendapatan untuk segmen real estate lebih rendah akibat sebagian besar serah terima apartemen selesai di tahun 2021. Penurunan pendapatan sebagian diimbangi dengan pemulihan yang stabil dari segmen bisnis kesehatan dan gaya hidup di tahun 2022.

FY22 consolidated revenue decreased by 4% YoY to IDR 14.8tn due to lower revenue from the real estate segment as most apartment handovers were completed in 2021. The revenue decline was partially offset with the steady recovery of healthcare and lifestyle business segment in 2022.

* FY21 dinormalisasi untuk mengecualikan konsolidasi LMIRT

* FY21 normalized to exclude LMIRT consolidation

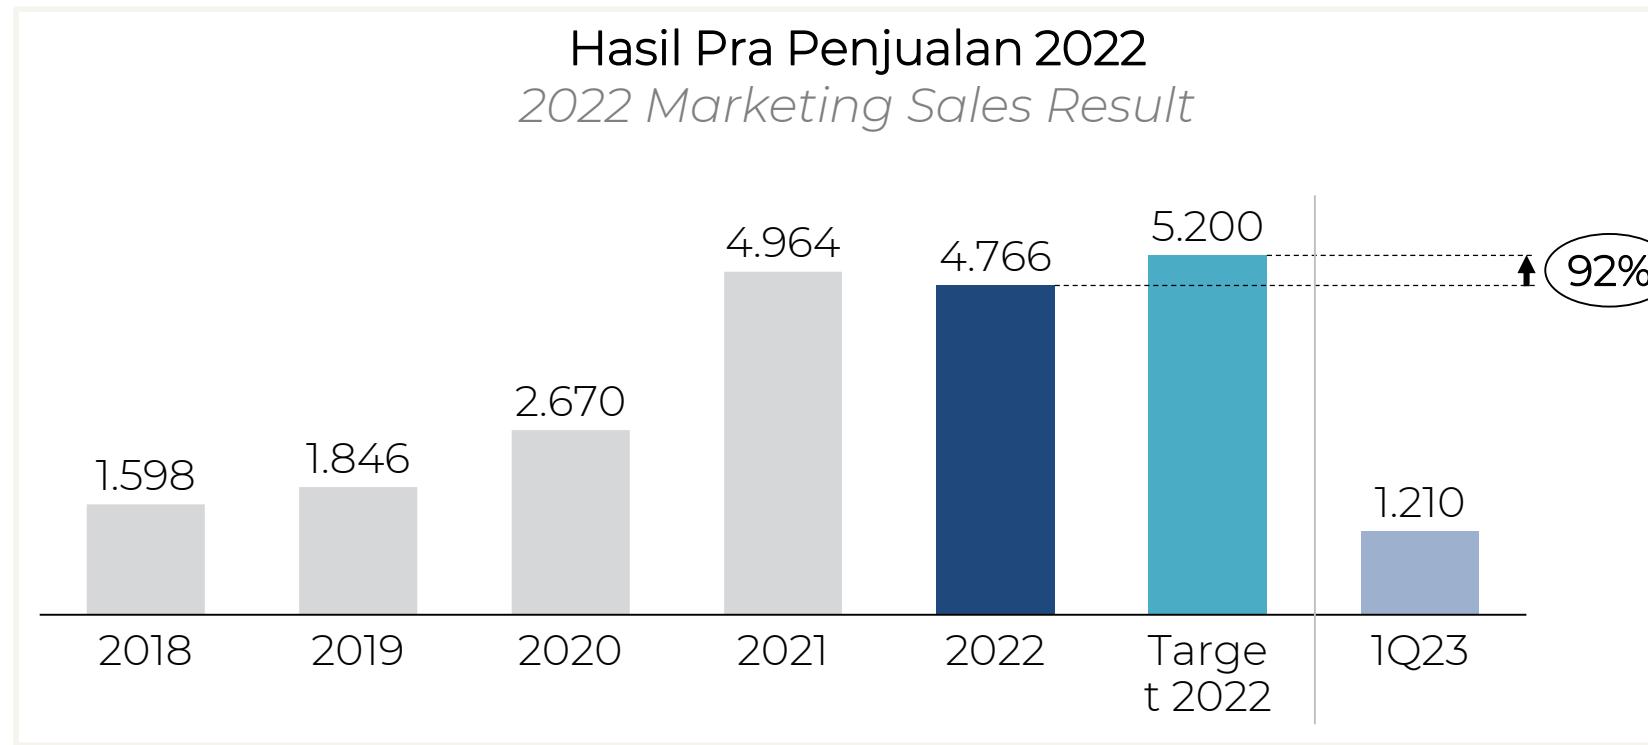

Meskipun EBITDA konsolidasi FY22 menurun sebesar 3%, bisnis gaya hidup telah memberikan kontribusi pertumbuhan 3% YoY terhadap angka konsolidasi yang didorong oleh kinerja operasional dan margin yang lebih baik dengan mengoptimalkan biaya selama pandemi yang kami yakini bahwa peningkatan margin ini akan terus berlanjut hingga paska pandemi.

Though FY22 consolidated EBITDA declined by 3%, the lifestyle business has contributed 3% YoY growth to the consolidated figure driven by better operational performance and margin by optimizing cost during pandemic which we believe that the improved margin will carry over to post pandemic.
